# A SUSTAINABLE VISION FOR URBAN INDIA

2008. Hardcover. Book Condition: New. 475 After 61 years of the Independence, India still has about one-fifth of its population, a mammoth 250 million, below the sustenance level or poverty line. It raises the question of the relevance of the planning process. It is necessary to have a hard look at the ongoing perceptions, process, plans and programmes., , The urban and environmental challenges of Indian cities prompts a reconsideration of the values, goals, and means of achieving them. There...

## Reviews

---

*This ebook is really gripping and fascinating. it had been writtern extremely perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Leopold Hills**

*Totally among the finest publication I actually have at any time study. I am quite late in start reading this one, but better then never. I found out this publication from my dad and i suggested this pdf to discover.*
